

Jillian Kline

Software Engineer

About me

I am a former pharmacy technician turned software engineer with a keen eye for detail and strong problem-solving skills. After completing a Software Engineering bootcamp at General Assembly, I specialize in full-stack application development and leverage my data analysis background to identify opportunities and address complex challenges in the development process.

Work experience

Pharmacy Technician

- Assisted customers and handled prescriptions in a fast-paced environment
- Maintained accuracy and attention to detail when processing medications and data
- Communicated clearly with customers and healthcare professionals
- Managed time efficiently while handling multiple tasks and priorities
-

Education

General Assembly Software Engineering Bootcamp
